

Pivigo is seeking a

Community Manager

with immediate start date.

Introduction

Pivigo is a fast expanding, VC-backed start-up in the London data science and AI scene. Pivigo was recently named one of the Top Five Fast-growing Companies to Watch in 2017 by Forbes, and we work with a wide range of companies, from FTSE100 corporates to the freshest start-ups, on solving any and all people-related problems they may have within Big Data. In 2014 we started Europe's largest data science bootcamp (S2DS, www.s2ds.org) and in 2017 we are launching the data science marketplace, a unique opportunity to connect data scientists with businesses.

Help us build one of the most exciting data science start-ups in Europe!

Tasks and responsibilities

The Community Manager drives our engagement with the academic community, and the wider Data Science community. The Community Manager further has ownership of expanding our Data Science Ambassador programme. Specifically, we look for someone to:

- Engage with University careers departments and in University outreach events such as presentations and career fairs;
- Market the Data Science Ambassador programme towards the academic community and manage the Ambassador community;
- Support the delivery of the S2DS programme by mentoring Data Science teams;
- Engage and communicate with the S2DS Alumni;
- Support the marketing efforts of Pivigo in social media and other outlets and via gathering use cases for PR purposes; and
- Support the development team in building exciting features for our data science community.

What we look for

- A minimum of an MSc in an analytical topic (ideally PhD);
- Outstanding communication skills in writing and speaking;
- A passion for Data Science;
- An outgoing personality;
- Good understanding of, or strong interest in Social Media.

What's in it for you

- Competitive package;
- Be part of an extremely exciting journey with Pivigo;
- Be at the heart of our data science community;
- Join a fantastic and close-knit team;
- Free cookies and massages!

Apply by sending a CV and a cover letter to jobs@pivigo.com
